

Wanted: XHTML-CSS web developer

We need a bright, enthusiastic XHTML-CSS web developer to join our new media team. We're the largest web host in the UK and we're based in spanking new offices near Heathrow.

As an expert in XHTML-CSS, you'll really care about accessibility, usability and cross-browser compatibility. You'll be working closely with our marketing and development teams to code clean, attractive, friendly designs for our web hosting brands: WebFusion, Donhost and 123-reg.

About your skills

Required:

- Excellent CSS skills
- Expert in semantic XHTML-CSS valid to W3C
- Expert in building cross-browser compatible websites
- Experience creating search engine optimised XHTML-CSS code
- Proven time-keeping, interpersonal and organisational skills
- Accuracy, consistency and an eye for detail
- Experience working in a team environment

Desirable:

- Experience of AJAX and DOM scripting
- Working knowledge of Photoshop or similar image editing software

More about us

We're a nice bunch of people based at offices in Stockley Park. It's a relaxed office environment just a couple of miles from Heathrow airport, but tucked away from the flight paths. It's basically a leafy business park in a great location.

You can reach us easily by car (5 minutes from the M4) and you can park for free. Or come by train - we're just 10 minutes from the station.

We pay a good salary and offer plenty of benefits, like private healthcare, company pension and life assurance.

To apply:

If you're interested, please email your CV and a covering letter to vacancies@webfusion.com (we are an internet company, after all).

Don't forget to tell us which role you're applying for. Please include a covering letter, curriculum vitae, and some links to where we can see your work, plus your current and expected salary.
